

WELCOME TO THE **IMAGINE MORE SPACE**

**SEARCHING FOR ONE WORLD,
I FOUND A THOUSAND.**

Le nostre scelte rispettano il pianeta e i bambini.

Our choices respect the planet and the children.

- + Scegliamo con attenzione i nostri fornitori e i materiali che utilizziamo per i nostri prodotti. Legno e gomma naturali - plastiche riciclate e riciclabili e carta e cartone di origine controllata.
 - + La nostra scelta di prediligere plastiche riciclabili a eco plastiche nasce dalla consapevolezza che il ciclo di riciclo della plastica è il migliore in assoluto ed è possibile dare tantissime vite alla plastica. Le eco plastiche invece spesso vengono gettate nel bidone sbagliato (quello della plastica da esempio) inquinandola e impedendone il riciclo.
 - + Non sempre le cose sono come sembrano e le scelte più semplici sono le migliori - le nostre scelte sono sempre ponderate per cercare di dare ai nostri bambini il mondo che meritano.
-
- + *We love children, and we love our planet. That's why we carefully select our suppliers and the materials we use in our products: natural wood and rubber, recycled and recyclable plastics, and paper and cardboard from controlled sources.*
 - + *Our choice to favor recyclable plastics over bioplastics comes from the understanding that the plastic recycling process is incredibly effective, allowing plastic to have multiple lives. Bioplastics, on the other hand, are often mistakenly disposed of in the wrong bins (such as with regular plastics), contaminating the recycling stream and preventing effective recycling.*
 - + *Things aren't always as they seem, and the simplest choices are often the best. Our choices are always thoughtfully considered to help give our children the world they deserve.*

Siamo un'azienda che da oltre 80 anni produce in Italia Timbrini Giocattolo in legno e gomma.

We are a company that has been producing wooden and rubber toy stamps in Italy for over 80 years.

Siamo un'azienda che da oltre 80 anni produce in Italia Timbrini Giocattolo in legno e gomma.

Il nostro amore per la tradizione unito alla voglia di innovazione per stare al passo con i tempi ci hanno permesso di dare vita a collezioni uniche nel loro genere.

I punti di forza sui quali basiamo il nostro successo sono:

- Il rispetto della tecnica di produzione consolidata negli anni.
- La fabbricazione dei nostri prodotti interamente italiana, garantisce una qualità altissima e un costante controllo sulla filiera produttiva.
- Il continuo impegno nella ricerca di nuove idee che siano all'altezza delle aspettative dei nostri piccoli consumatori.

L'insieme di tutti questi elementi fa sì che i più importanti marchi del mondo del giocattolo ci abbiano scelto come licenziatari per dare vita ai timbri con i loro personaggi principali.

Uno dei primi giochi che i bambini apprendono è colorare.

I timbri consentono ai bambini di dare sfogo alla propria creatività disegnando in compagnia dei loro personaggi preferiti. Un gioco classico che aiuta i bambini a sviluppare coordinazione e a stimolare la propria creatività, doti che spesso con le nuove tecnologie vengono messe da parte.

Il nostro impegno è quello di creare giocattoli che abbiano al centro del loro sviluppo le esigenze dei bambini, che uniscano il divertimento e il lato ludico a un lato educativo e pedagogico.

We are a company that has produced toy stamps for over 80 years.

Our love for tradition together with our desire to innovate have enabled us to give life to wonderful collections unique in their kind.

Our points of strength are:

- *respect for a production technique that has been reinforced throughout the years;*
- *Items that are 100% produced in our factory in Italy, which means we have constant control in every production stage and can ensure our products are of the highest quality;*
- *We continuously research new ideas to meet the expectations of our young consumers.*

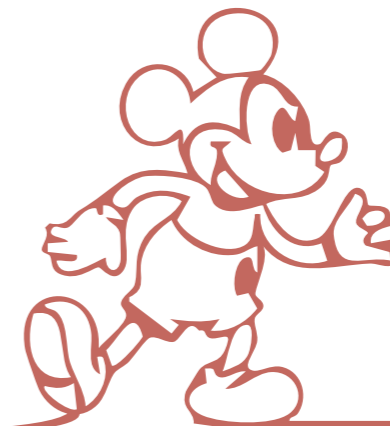

Through joining all of these elements, we have been hand picked by the most important toy brands to bring their characters to life through stamps.

One of the first activities children learn and love is coloring and being creative.

By using stamps, children can bring their favourite characters to life and allow their imagination to run wild. This also helps children to develop their co-ordination.

These qualities are often forgotten about due to games involving new technologies.

At Multiprint, our aim is to create toys that place children at the center of their design, uniting both sides of fun and creativity with educational and pedagogical.

I nostri prodotti stimolano la crescita psicomotoria dei bambini.

Our products stimulate children's psychomotor development.

1. Proprietà Propedeutiche:

I nostri prodotti sono progettati per preparare i bambini a competenze più complesse. Utilizzandoli, i piccoli sviluppano la coordinazione occhio-mano, un'abilità fondamentale per la scrittura e altre attività motorie fini. Inoltre, l'uso di diversi colori e forme aiuta a rafforzare il riconoscimento visivo e la classificazione, che sono precursori essenziali del pensiero logico e matematico.

2. Valore Didattico:

Ogni timbro e colore nel nostro catalogo è un'opportunità di apprendimento. Attraverso il gioco, i bambini imparano a identificare e nominare forme, colori e oggetti. Questo processo non solo arricchisce il loro vocabolario, ma stimola anche la curiosità e l'esplorazione. I nostri materiali sono particolarmente utili per introdurre concetti di base come la classificazione, il confronto e il raggruppamento, competenze fondamentali per il pensiero critico e l'apprendimento scientifico.

3. Stimolo Cerebrale:

Il gioco con timbri e colori è un'eccellente attività per stimolare il cervello. Questa forma d'arte tattile e visiva incoraggia i bambini a utilizzare entrambi gli emisferi cerebrali: il lato destro, per la creatività e l'intuizione, e il sinistro, per la logica e l'organizzazione. La selezione di colori e la creazione di pattern stimolano il pensiero astratto e la pianificazione, mentre la fisicità di timbrare e colorare potenzia le abilità motorie e la percezione sensoriale.

1. Propaedeutic Properties:

Our stamps and colors are designed to prepare children for more complex skills. Using them, young learners develop hand-eye coordination, a fundamental skill for writing and other fine motor activities. Moreover, the use of different colors and shapes helps to strengthen visual recognition and classification, which are essential precursors to logical and mathematical thinking.

2. Educational Value:

Each stamp and color in our catalog is a learning opportunity. Through play, children learn to identify and name shapes, colors, and objects. This process not only enriches their vocabulary but also stimulates curiosity and exploration. Our materials are particularly useful for introducing basic concepts such as classification, comparison, and grouping, key skills for critical thinking and scientific learning.

3. Brain Stimulation:

Playing with stamps and colors is an excellent activity for stimulating the brain. This tactile and visual form of art encourages children to use both hemispheres of the brain: the right side for creativity and intuition, and the left for logic and organization. Selecting colors and creating patterns stimulate abstract thinking and planning, while the physicality of stamping and coloring enhances motor skills and sensory perception.
